

INSIGHT

1006 1st Avenue – Manson, IA 50563 – Phone: 888-437-3835 – www.starenergyfs.com

Spud Colwell hung up his hat this month after 45 years of dedicated service. Although he will be greatly missed, we wish him the best on his retirement!

How to read your propane tank gauge:
Your tank gauges are located under the lid of your tank. There are two gauges, the percent gauge and the pressure gauge. The percent gauge will tell you how much gas is remaining in your tank; this is the gauge with numbers from 5 to 95. Remember to check your percent gauge before ordering propane!

Driver Connection

Meet Justin Venteicher!
Justin is our Propane Driver for the Jefferson, Dana, and Churdan Areas. In Justin's free time he enjoys camping with his family.

In the month of January, we handed out checks to our local Fuel our Future participants in the amount of \$6,876.94. This amount represents purchases of fuel through any of our 19 FAST STOP locations from July 1st, 2018- December 31st, 2018. The Fuel the Future program allows a local school or law enforcement association to partner with STAR Energy FS and receive anywhere from \$0.02-\$0.03 per gallon on all gallons the supporting card purchases through any of our local FAST STOP locations.
